Everything you need to know

About the centre

The shopping centre is located in the northern part of the city centre at a beautiful seaside location. Thon Center Florø is easy to reach, whether you're travelling by car, bus or boat. The ring route bus stops just outside the centre and it is a short distance from the quay to the centre for boaters arriving from the north and south.

Market and customer base

A large percentage of the residents of the municipality of Kinn are families with strong purchasing power. The centre's customer base is mainly the residents of Flora and Bremanger, but visitors also originate from Førde, Naustdal and Askvoll. The city is also popular with boat tourists in the summer, many of whom use the guest harbour close to Thon Center Florø.

Retail mix

Thon Center Florø has a carefully selected range of shops and concepts that make sure that Florø's residents have everything they need in one place. In addition to grocery shops, there are also food service establishments, clothing and wellness shops, electronics and a number of niche shops at the centre.

Expansion:

In 2020, Thon Center Florø was expanded by 3,000 square metres, creating space for even more shops and concepts at the centre. There was considerable interest in the newly available premises and it is expected that the stronger selection will ensure that Thon Center Florø remains the leading centre in the area.
